ABOUT THE UNIVERSITY

State Open University is recognized by the University Grants Commission under (Open and Distance Learning) Regulation 2017.

The University was established in June 1996 with a vision **“Higher Education to Everyone, Everywhere”**. The University blossomed in the era of globalization in which the economies of the world are being transformed from their original closed self sustaining structure to the globalized context, where they can expose themselves to the competitive world. This transition forced the arena of knowledge emphasizing itself to more of its application than of accumulation of facts. The Karnataka State Open University in order to cope with the present global environment is attempting to integrate interdisciplinary approaches in the dissemination of knowledge with the aim of achieving overall human personality development.

Mysuru is a historical centre possessing a rich cultural heritage which had valiant historical events of different kingdoms and humane social setup of incomparable stature. University has paved the way for realizing the vision in the international arena leading to human welfare. It was started during the year 1996 as a separate entity to cater to the needs of thousands of young aspirants of higher education.

The world has entered the 21st Century with a very stiff challenge ahead of it. No country can claim an exception to this challenge. It is high time to realize the impact of globalization, knowledge revolution and significant advancement made in information and communication technology resulting in global competitiveness for survival. This has compelled educationists and educational planners to re-define the roles of the Universities in the contemporary changing world. A new thinking, a new approach, new concepts, and directions to convert the demographical advantage into knowledge powerhouse through a blending of academic knowledge with a conversion of semi-skilled and unskilled manpower into professionally skilled manpower.

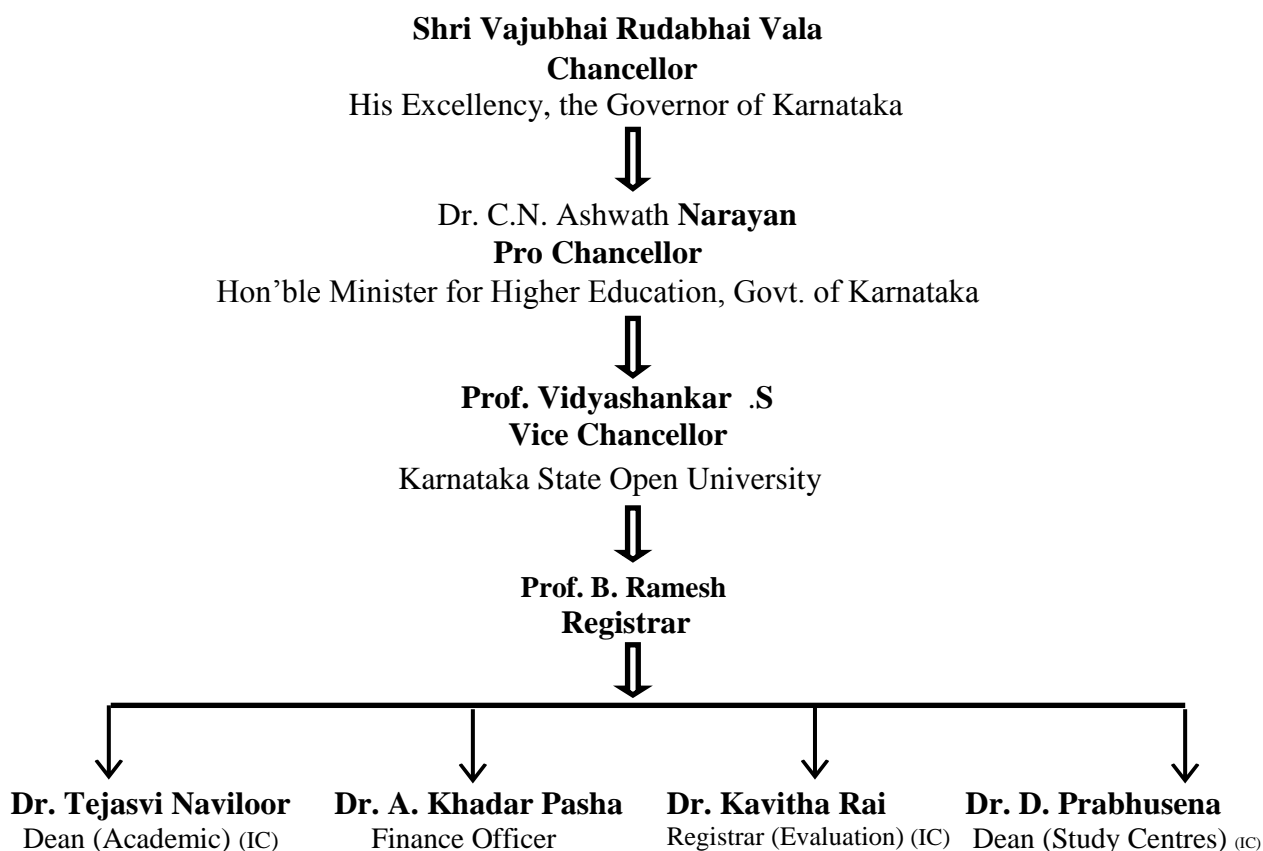

Special Features: The Open Distance Learning system is unique and challenging because the learners joining Open Distance Learning hailed from a diverse socio-economic background and with a varied learning background. The present conventional university system could not meet the genuine needs of such students who could not pursue their studies in a conventional university for various reasons. In order to give them an opportunity to pursue their studies in Open Distance Learning, this University has been established. The major objective of the University is to generate human resources of top quality with more emphasis laid on the following issues:

- (1) To transform guiding vision into an action plan through various measures.
- (2) To generate high-quality human resources through skill training.
- (3) To provide an opportunity to those who discontinued their studies.
- (4) To provide an opportunity for the working-class to acquire higher knowledge.
- (5) To provide an opportunity to pursue higher education in their own places.
- (6) To provide a transparent manner of admission.
- (7) To transfer restricted learning to global-based learning.
- (8) To promote a new concepts and new directions to higher education.
- (9) To promote multiple imperatives to achieve national development.
- (10) To play a critical role in addressing social imperatives.
- (11) To create adequate student-support services for innate capacity building.
